SUMMARY

Aspiring Ethical Hacker with background in educating young learners and programming. Proficient in breaking down complex topics and developing a problem-solving mindset. I enjoy challenging myself with analytical problems and to persist in solving them until completion. My biggest dream is to help develop security solutions that can make the world a better place, especially considering the current landscape in technology where cybersecurity is in more demand than ever.

SKILLS

- | | | | |
|--------------|----------------|-------------------------------|--------------|
| • HTML | • Python | • C# | • APIs |
| • CSS | • React | • Databases | • .NET |
| • JavaScript | • Git / Github | • Object Oriented Programming | • TypeScript |

EXPERIENCE

Programming Instructor Logiscool Ltd.

Sep 2024 – July 2025, Constanța

- Delivered programming lessons to students aged 6 to 18, utilizing tools to teach foundational coding concepts through interactive and engaging methods.
- Taught Python programming, covering topics from basic syntax to complex concepts like file manipulation and game development.
- Led educational sessions on online security, teaching students the importance of digital safety and methods for staying secure online.
- Enhanced students' problem-solving and critical thinking skills through hands-on projects, including game development and algorithmic challenges.
- Fostered a communicative and supportive learning environment, focusing on active engagement and knowledge retention among young learners.

Front-end Training EPAM

Apr 2024 – Aug 2024, Remote

- Leveraged React Router to manage complex navigation, ensuring an intuitive and responsive user interface.
- Implemented Redux for efficient state management, incorporating async Redux to handle real-time data updates.
- Performed thorough code reviews and feedback, contributing to collaborative team dynamics.

.NET Full-Stack Developer Internship Cegeka

Feb 2023 – May 2023, Bucharest (Remote)

- Implemented a mock habit tracker app alongside a team of 8 other students and 2 mentors using Blazor and .NET.
- Improved the user interface and user experience by building an intuitive application, implemented dark mode functionality, and efficiently utilized external design libraries like Ant Design, achieving a modern design.
- Contributed actively to daily meetings, code reviews, and worked according to agile methodology.

EDUCATION

Bachelor of Engineering, Computer Science for Economics

Romanian-American University, Bucharest, Oct 2020 – July 2023

Exchange Program, Software Engineering

Saxion University of Applied Sciences, the Netherlands (Deventer), Aug 2021 – Feb 2022
